Introduction:

Substitute teachers serve a vital role in Lincoln County School District #2. As teachers strive to enrich the lives of their students, they depend on highly qualified substitute teachers to keep good instruction flowing during their absence. This has never been more important than it is today when teachers are required to spend more time out of the classroom to keep up with the rapid advancements with instructional technology.

The district recognizes the daily challenges that are faced by substitute teachers. Substitute teaching may be one of the most difficult jobs in the district. The purpose of this handbook is to provide substitute teachers with the necessary information and resources to meet the challenging expectations of substitute teaching in Lincoln County School District #2.

Requirements for Employment as a Substitute Teacher in LCSD#2:

All prospective substitute teachers must complete a classified staff application for employment in order to be considered for substitute teaching assignments in Lincoln County School District #2. Following is a checklist of requirements for application:

- Complete all sections of the LCSD#2 Application for Classified Employment
- Interview with an administrator
- Complete all paperwork and pay fees for a background check
- Complete application to the Wyoming Professional Teaching Standards Board (PTSB) for substitute teaching certification
 - o This requires a \$100 application fee
 - o Applicants must either have an associate's degree or the equivalent (60 credits), or complete a substitute teaching training course as prescribed by the Wyoming PTSB

All applications that meet the above standards are reviewed for consideration. Applicants are selected for interview based on district need and the quality of the application. Successful candidates are placed on the district's Substitute Teaching List.

Substitute Teaching Assignments and the Substitute Teaching List:

Lincoln County School District #2 maintains a list of active substitute teachers who have been approved for employment and who are available to take substitute teaching assignments. The School District Administrative Assistant will notify the Substitute Coordinator of substitutes who have been approved. Once on the list, substitute assignments are handled via Ready Sub, an online substitute assignment system. Instructions for registering on Ready Sub will be emailed to the substitute teacher once they are approved. Teachers may contact substitutes directly but still must place their request for a substitute on Ready Sub.

Removal of Name from the Substitute Teaching List:

1. **Voluntary Removal:** If you wish to resign or temporarily remove your name from the substitute teaching list, please submit a letter or email stating your request to the district's Administrative Assistant- Amanda Welch. If you are requesting a temporary removal, please indicate the date that you would like your name to be reactivated on the list. To reactivate your name, contact the district's Administrative Assistant and request reactivation.
2. **Involuntary Removals:** Substitute teachers are temporary, at-will employees of Lincoln County School District #2. Employment as a substitute teacher depends on district need, teacher/school requests, and performance. An involuntary removal can occur when:
 - a. The substitute teacher fails to meet the expectations outlined in this handbook
 - b. One or more incident reports are filed with the Central Office
 - c. Requests by teachers are limited over time
 - d. The district decides to downsize the list according to need

Expectations for Substitute Teachers:

1. **Policy and Procedure:** Substitute teachers are required to follow district policy and school procedures. District policies that are pertinent to substitute teachers are included in appendix A of this handbook. Procedures specific to each school are not contained in this handbook and can be obtained through the main office of each school. It is the responsibility of the substitute teacher to obtain and understand district policy and school procedure. A comprehensive set of policies and procedures may also be found on the district website- www.lcsd2.org.
2. **Dress Code:** Substitute teachers should differentiate themselves from students by dressing according to policy and professional standards. At a minimum, substitute teachers need to emulate the dress of other teachers in the building. Dress should be appropriate for the specific teaching assignment. Substitute teachers are expected to maintain good personal hygiene.
3. **Arrival and Departure Times:** Substitute teachers are expected to check in at the main office of the assigned school **at least 30 minutes** prior to the beginning of class. Substitute teachers may leave the building after school ends when the classroom is in order, the report to the classroom teacher is complete, and student work and instructional materials are organized according to the instructions of the classroom teacher.

4. **Extra Duty Responsibilities, Recess, Lunch and Prep Hour:** Substitute teachers are responsible to assume all extra duty assignments that are normally administered by the classroom teacher. If the classroom teacher does not leave detailed instructions for these times, then the substitute teacher must inquire with the main office to determine the responsibilities. Failure to do so may result in serious consequences because students could be subject to situations lacking in supervision. Substitute teachers may be given responsibilities or other assignments during prep hour at the discretion of the building principal.
5. **Student Safety and Wellbeing:** Substitute teachers are responsible for the safety and well-being of every student in the class they are assigned to teach.
 - a. Students must be supervised at all times. Students must never be left in a classroom or in any other area on or off campus without close adult supervision from a qualified school employee. Never leave your class unattended.
 - b. Students who leave class to use the restroom or for other reasons that are not regularly scheduled, must be given a hall pass that indicates the time of the student's departure from class. If the student does not return within a reasonable timeframe, the substitute teacher must contact the main office and inform the administration of the student's departure from class.
 - c. Substitute teachers must not release a student from class without direct permission from the main office. If parents or other family members insist on taking their child, you must direct them to the main office where they can work with the office staff to check their child out of school. If anyone leaves your classroom with a child without prior approval, you must notify the main office immediately.
 - d. Any potential or eminent physical threat must be dealt with using due diligence with the intent of preventing physical harm to students. If you are unsure about how to handle a situation, you must contact a teacher or other school staff member who is in close proximity. Whenever circumstances permit, contact the main office and notify the administration when a physical threat exists. It is always best to err on the side of safety! If you're not sure about the presence of a potential threat, take necessary measures to ensure the safety of your students.
 - e. Each school has an emergency response plan and emergency response protocol. Substitute teachers are responsible to follow school-specific protocol in the event of an emergency or during an emergency drill. A copy of the emergency response plan for each school can be found in the main office of each building. It is the responsibility of the substitute teacher to obtain and understand the requirements of each school's emergency response plan.
 - f. The substitute teacher must maintain order and control of the class at all times.
6. **Student-Teacher Relations:** Treat all students with respect and dignity.
 - a. Substitute teachers are to use methods for classroom management that encourage a positive learning environment for all students.
 - b. Interactions between substitute teachers and students are to be positive, friendly, and professionally appropriate. Being friendly does not mean that you should encourage friend-like relationships with students. You need to be their friendly teacher, not their teacher friend!
 - c. Use of corporal punishment is prohibited.
 - d. Use of sarcasm is discouraged and should only be used in an academic context where the sarcasm is not directed toward or linked to any student or group of students in the classroom.
 - e. Use of foul or abusive language by a substitute teacher is prohibited and constitutes grounds for immediate termination.
 - f. Physically touching a student beyond a handshake or a high five is highly discouraged. Inappropriate physical touching may be grounds for termination and could lead to a criminal investigation.
 - g. Provide all students with opportunities to respond and participate in class discussions and activities.
 - h. Refrain from verbally reprimanding students in front of their peers.
 - i. Personal phone calls, Facebook and other social networking, including text messages, to students is inappropriate.
7. **Instruction:** Adhere to the lesson plans that are provided by the classroom teacher.
 - a. If lesson plans are insufficient to fill the allocated time, substitute teachers may be required to come up with relevant learning activities in order to keep students engaged in learning.
 - b. When feasible, sub-provided learning activities should be related to the lesson or daily objectives in the relative subject areas. Learning activities should require all students to actively participate or frequently respond to lesson material.
 - c. If multimedia is used in class, content and use must comply with district policy and procedure (See Procedure IIA-R in appendix A).
8. **Use of Internet:** All employees of LCSD#2 must read and sign an Acceptable Use Agreement before accessing the internet at school and/or with school equipment.
 - a. **Substitute Teacher Use:**
Substitute teachers can access the internet at school when doing so is necessary for the planning or implementation of instruction, for school approved professional development, or when access is required for classroom record keeping. Internet access for personal business or leisure is

prohibited. Strict compliance with the district's Acceptable Use Agreement is required. Violations of this agreement including the access of inappropriate internet sites is likely to result in termination.

b. **Student Use:**

Substitute teachers are responsible to monitor the content of web-sites and other sources when students are using computers or other communications devices. Students are restricted from the use of cell phones, gaming devices, and any other communications device that may be connected to outside networks. Each school has a procedure for dealing with the use of these devices.

Substitute teachers are responsible to understand and administer the provisions of each school's procedures.

9. **Confidentiality:** Student educational records and other personally identifiable information about students are protected by law. Disclosing such information about a student to friends, family, or others in the community is unethical and illegal. Disclosing such information to other employees of the school district is acceptable when the person on the receiving end of the disclosure has a definitive need to know in order to provide appropriate educational services or to provide for the safety and well being of one or more students in the school setting.

10. **Daily Procedures:**

a. **Beginning of Day Procedures:**

1. Check in at the main office when you enter the building. You should check in at least 30 minutes prior to the beginning of school.
 - a. Obtain a key to the classroom.
 - b. Ask the school secretary if there are any extra-duty assignments that you are responsible for.
 - c. Ask the school secretary if there are any changes to the schedule or special events that you should be aware of.
 - d. Make sure you understand how to record attendance. This may require a web address and a password.
2. Check the classroom teacher's mail box to see if there are any important announcements or other items of business that may require your attention during the day.
3. Proceed to your assigned classroom and read the instructions left by the classroom teacher. Make sure that you allow time to make copies and prepare the materials left by the classroom teacher. It is imperative that you are in your classroom ready to teach when your students arrive. Greet your students as they enter the classroom.

b. **End of Day Procedures:**

1. Make sure that all students exit the classroom in an orderly manner. If you are assigned to a classroom with early elementary students, walk out with the students and make sure that every child finds their way to their bus or parent.
2. Clean up and organize the classroom environment. The cleanliness and order of the classroom, student work, and instructional materials will be the classroom teacher's first impression of your effectiveness when he/she returns to work.
3. Thoroughly complete a Substitute Teaching Daily Report. One form needs to be completed for each day that you substitute teach, even when you are substituting multiple days for one teacher. A copy of this report can be found in Appendix B of this handbook. Teachers appreciate knowing how students respond to various learning activities and they need to know which students contributed to the lesson activities and which students misbehaved. **A copy of this report must be submitted to the main office before you leave each day.**
4. Make sure that all computers and other powered devices are properly shut down before leaving the classroom.
5. Secure the classroom by closing and locking all windows and doors as you leave.

11. **Payroll**

Substitutes are paid on the 20th of the month following the month they worked in. An example would be if you worked in August you would be paid on September 20. Certified subs are paid according to the following scale:

Regular Pay- Certified Substitute:	\$108.00 per day
Over five consecutive days for the same teacher:	\$123.00 per day (after 5 th day)

Appendix A
District Policy and Procedure

Note: The policies and procedures included in this handbook include those most relevant for substitute teachers. Substitute teachers are responsible to follow all district policy and procedure. A fully inclusive policy manual can be viewed at the School District Administration Office or on the web at www.lcsd2.org.

SEXUAL HARASSMENT

All members of the school community must be treated with dignity and respect. Students and employees must be able to learn and work in an environment free from unsolicited and unwelcome sexual overtures. Sexual harassment is deemed unacceptable conduct in the employment and educational environment and will not be tolerated. It shall be a violation of this policy for any student or an employee through conduct or communication of a sexual nature as defined by this policy. This policy is equally applicable to sexual harassment between supervisors and workers, between coworkers, between students, and between students and employees. This policy shall be in force on and off school district property, i.e., at school activities and/or school sponsored events that may occur away from school, and whenever school employees have jurisdiction over students. This district will act to investigate all complaints, either formal or informal, verbal or written, of sexual harassment and to discipline any student or employee who sexually harasses a student or employee of this district. It is no defense to claim of sexual harassment that the alleged harasser did not intend to harass.

I. SEXUAL HARASSMENT DEFINED

For purposes of this policy, the following definitions shall apply:

Sexual harassment consists of unwelcome sexual advances, requests for sexual favors, sexually motivated physical conduct or other verbal or physical conduct or communication of a sexual nature, including inappropriate or adverse conduct or communication directed to an individual because of that individual's sexual orientation or sexual identity when:

1. Submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of obtaining or retaining employment, or of obtaining an education
2. Submission to or rejection of that conduct or communication by an individual is used as a factor in decisions affecting that individual's employment or education
3. That conduct or communication has the purpose or effect of substantially or unreasonably interfering with an individual's employment or education, or creating an intimidating, hostile or offensive employment or education environment.

Any sexual harassment as defined when perpetrated on any student or employee by a student or employee will be treated as sexual harassment under this policy.

Sexual harassment may include but is not limited to:

1. Verbal harassment or abuse
2. Subtle pressure for sexual activity
3. Inappropriate patting, touching or pinching
4. Intentional brushing against a student's or an employee's body
5. Demanding sexual favors accompanied by implied or overt promises of preferential treatment with regard to an individual's employment or educational status
6. Demanding sexual favors accompanied by implied or overt threats concerning an individual's employment or educational status
7. Any sexually motivated unwelcome touching
8. Sexual violence which is a physical act of aggression that includes sexual act or sexual purpose

II. REPORTING PROCEDURES RE: ALLEGATIONS OF SEXUAL HARASSMENT

Any person who believes (s)he has been the victim of sexual harassment by a student or an employee of the school district, or any third person with knowledge or belief of conduct which may constitute sexual harassment shall immediately report the allegations to an appropriate school district official as designated by this policy. The district encourages the reporting party or complainant to use the report form available from the principal of each building or available from the district office.

In each school building: The verbal or written report of sexual harassment at the building level may be given to either the building principal or the school superintendent, whose office is located at 360 S. Jefferson, Afton, WY 83110. The person to whom the report is made shall investigate to follow up the report or, alternatively, if the report is made to the building principal, the building principal may assign the investigation of the report to the Superintendent. Either person to whom a report is made shall notify the principal of the employee alleged to have done the harassment or, in the case of a student, the building principal, and the superintendent of schools immediately upon receiving the report. If the report was given verbally, the person to whom the report is made shall reduce it to written form within 24 hours and forward it to the Superintendent. Failure to do so will result in disciplinary action. If the complaint involves the building principal, the complaint shall be filed directly with the Superintendent or, if the complaint involves the Superintendent, the complaint shall be filed directly with the Chairman of the Board of Trustees.

District-wide: The School Board hereby designates the Superintendent as the District Human Rights Officer to receive reports or complaints of sexual harassment from any individual, employee, or victim of sexual harassment from any individual, employee, or victim of sexual harassment and also from the building principals and/or other persons to whom reports may be made as outlined above. If any person would prefer to report to an individual other than the Superintendent, the report may be made to the Director of Instruction to conduct the investigation. In the event of any complaint involving the Superintendent, the complaint shall be filed directly with the Chairman of the Board of Trustees.

Freedom from retaliation: Submission of a complaint or report of sexual harassment or sexual violence will not affect the individual's future employment, grades, work assignments, or subject complainant to retaliation or any kind.

Reporting: Use of formal reporting forms is encouraged but not mandatory. This district will respect the confidentiality of the complainant and the individual (s) against whom the complaint is filed as much as possible consistent with the District's legal obligations and the necessity to investigate any/all allegations of sexual harassment. Both the complainant and the alleged harasser are strongly encouraged to keep the matter confidential. The District cannot and will not prevent either from gathering information to support the claim or defend against the claim but would urge both parties to exercise the utmost care and caution in gathering information in order to keep the matter as confidential as possible.

III. INVESTIGATIONS OF ALLEGATIONS OF SEXUAL HARASSMENT:

It is the goal of this policy to have a process in place that is sensitive to the needs of the students and/or employees as well as the rights of those against whom allegations have been made. All complaints, both formal and informal, must be taken seriously and investigated by means of an Administrative Procedure as developed by the Superintendent. No retaliation will be taken against individual (s) involved in the investigation process.

IV. RECOMMENDATIONS AND ACTION(S) TAKEN:

Upon determination that a complaint is valid, the Principal or, in the case of a District complaint, the Superintendent, will take such action as appropriate based on the results of the investigation.

The results of the investigation of each complaint filed under these procedures will be reported, in writing, to the complainant by either the principal, the case of a building-level complaint or Superintendent, in the case of a district-level complaint. The report will document whether or not disciplinary action was taken as a result of the complaint. A copy of this report will be placed in either:

- a. the student files of both the complainant and the accused; or
- b. the personnel files of both the complainant and the accused

In inconclusive cases in which no harassment can be proven against the accused or malice established against the accuser, the incident report will remain in the files referred to above in order to fully document the complaint so that any future occurrences may be examined in light of a possible pattern. In inconclusive cases where there are no subsequent reports of similar incidents with five (5) years from the date of the original report, the report, at the sole discretion of the Superintendent, may be purged from the file.

V. DISCIPLINARY ACTION:

A substantiated charge against an employee of the District shall subject such employee to disciplinary actions which may result but not be limited to, verbal warnings, letter of reprimand, suspension with or without pay, and dismissal.

A substantiated charge against a student shall subject that student to disciplinary actions including verbal warnings, reprimand, counseling, and suspension or expulsion, consistent with the Student Disciplinary Code.

STAFF DRESS AND APPEARANCE

Lincoln County School District #2 and the Star Valley/Cokeville Education Association are committed to perpetuating a high performing school district focused on outstanding student performance, achievement, and preparation for a lifetime of success. We believe that the professional appearance of our staff members includes dress, appearance, and grooming. Appropriate professional appearance not only reinforces a shared-vision of the district's and the teachers' identity as highly motivated professionals working toward a common mission and self-worth but, also, strengthens the community's attitude toward the district, public schools, and the teaching profession in general, as well as the conduct, morale, and performance of the district's students.

Therefore, it is the expectation of Lincoln County School District #2 that certificated staff must exercise good judgment in their choice of professional appearance for work or work-related activities by always appearing in a manner that:

- is appropriate to the situation
- invokes a positive impression from the community
- provides appropriate role modeling for students
- promotes a working and learning environment that is free from unnecessary disruption and,
- is conducive to high student and staff performance

Principals are delegated the authority and bear the responsibility for ensuring compliance with this policy and are expected to counsel employees and discipline any violators whom they supervise on professional appearance in conformance with the policy and the related procedures. Dress and attire should be evaluated periodically as part of the regular employee evaluation procedure.

STAFF-STUDENT RELATIONS

Teachers shall keep order and discipline in their classes. Students shall be treated with fairness and justice, but the teacher shall have the authority to take those measures, within reason and within the limits of acceptable professional practice, to maintain good order and discipline at all times when students are under his jurisdiction. Rules and regulations set forth on a district or on an individual school level shall be enforced by the teachers. These rules shall apply to teachers at all school-sponsored activities and guidelines for their enforcement shall be established.

STAFF COMPLAINTS AND GRIEVANCES

Channels shall be established for personnel to present complaints and grievances which shall permit their resolution at the lowest possible level.

An individual shall present such communications first to his immediate supervisor (in the case of a teacher, the principal). In those instances where satisfactory adjustments cannot be made by the immediate supervisor, the matter may be taken up with the Superintendent. If the matter cannot be satisfactorily resolved with the Superintendent, it may be referred to the Board.

Persons who feel they have been discriminated against may refer to formal or informal procedures for resolution of a complaint or grievance. The procedures are contained in GBM-R.

COMPLAINT PROCEDURE

The purpose of this procedure is to describe methods by which any complaints regarding unlawful discrimination under any District controlled programs, services, or activities can be resolved. This procedure is available for use by any student, student applicant, employee, or employee applicant, who believes he/she has been subjected to discrimination on the basis of race, religion, color, national origin, age, sex, or disability.

The Superintendent of Schools has been designated as coordinator for the Americans with Disabilities Act (ADA) of 1990. It shall be the responsibility of the Superintendent to assure that each complaint is given fair and impartial consideration.

The person who believes he/she has been discriminated against may file either an informal or formal complaint.

Informal Procedure

An individual who believes that the District or any employee of the District has discriminated against him/her is encouraged to resolve the matter informally through:

- (a) communication with the party alleged to have committed the violation, or
- (b) communication with an appropriate supervisor, counselor, or administrator who will act as a mediator to resolve the complaint.

Informal resolution may occur at any time.

Formal Procedure

If the complaining party is unsuccessful in obtaining an informal resolution or if the complaining party chooses to file an initial complaint on a more formal basis, the following procedure will be used. The formal complaint shall be presented in writing within 120 days of the date on which the complaining party could reasonable be expected to know of a violation.

Step One: If an alleged violation occurred within a school or within the jurisdiction of a school the written complaint shall be presented to the principal who will assist in preparing a written complaint. The principal will then convey the written complaint to the party alleged to have committed the violation. The party to whom the complaint is presented must render a written response within ten (10) working days from the receipt of the complaint. The principal shall render a determination within five (5) working days from the receipt of the response to the complaint.

Step Two: If the complaint is not resolved at Step One, or if the complaining party chooses, he/she may present their complaint to the Superintendent who will assist him/her in formulating and presenting a complaint. Resolution of the complaint will be sought in this manner:

- (a) Within in (10) working days of notification, the Superintendent, the complaining party, and the person or persons who allegedly have committed the violation will meet to discuss the complaint and its resolution. In preparation for the meeting, written statements from any or all parties may be required. The Superintendent will provide a written decision within ten (10) working days after this meeting. Copies of the decision shall be given to all parties present at the meeting.
- (b) Any participant involved with the complaint may appeal the decision by presenting to the Superintendent the basis for an appeal. The Superintendent, at his/her discretion, may appoint a complaint committee who will prepare a report to be presented to the Superintendent with findings and recommendations. The final determination shall be made by the Superintendent.

Step Three: If the determination of the Superintendent is unfavorable to the complaining party, the Superintendent will provide information to the complaining party for the procedure to be followed for filing a complaint with the Office of Civil Rights or other appropriate federal agency.

A successful complaining party shall be assisted by the principal or other supervisor in reaching conciliation with the individual or school causing the injury. If these efforts prove to be unsuccessful the

Superintendent will take steps to insure an equitable remedy. The Superintendent may take appropriate action to allow the successful complaining party to participate in the program, activity, or class in which the discrimination had originally occurred and he/she will take steps to immediately overcome the conditions that originally resulted in the unlawful discrimination.

Alternate Procedure

The formal and informal complaint procedures outlined above do not affect the right of any individual or group to file a complaint with the Office of Civil Rights or any other federal agency.

CRIMINAL BACKGROUND CHECK

Prior to making a final decision as to the hiring of any employee, the employee must consent to and provide the necessary documentation (fingerprinting, etc.) to allow for a criminal background check. The criminal background check shall be carried out by the School District. The Superintendent shall retain authority to request a criminal background check in any situation when he deems it appropriate for the School District to have the specific information prior to making a hiring decision, or when there has been no recent criminal background check of the applicant.

In accordance with Wyoming law, a criminal background check shall be conducted prior to the final decision on hiring any employee. This information shall be utilized solely for the purpose of providing additional information relevant to the hiring decision of the applicant. The criminal background information shall not be permitted to be used for any other purpose, and in order to ensure confidentiality of this information the following shall occur:

1. Access to the criminal background information shall be restricted to the Superintendent or their designee. The Superintendent shall have authority to reject any applicant who has been recommended for employment based upon the information contained in the criminal background check. This information will not be shared with all members of the interview or hiring committee.
2. The criminal history information shall be retained at the central administration office, with access given only to the Superintendent and/or their designee.
3. In the event the Superintendent elects to designate another person to receive the criminal history information, the Superintendent shall ensure that the person understands the confidential nature of this information, and that the person is familiar with the substance and intent of this policy.

USE OF PRODUCTS CONTAINING NICOTINE BY STUDENTS

The harmful effects of the use of tobacco and products containing nicotine have been researched extensively and suggest that schools should do everything possible to teach students to avoid the use of tobacco and products containing nicotine. A thorough attempt to educate youth regarding the adverse effects of tobacco and products containing nicotine is to be promoted in the health curriculum. Beyond this education, students are prohibited from the use of or possession of tobacco and products containing nicotine while on school premises and during school hours or during school activities.

Students in violation of this policy will be individually counseled concerning the use of tobacco and products containing nicotine. Additionally, students may be referred to civil authorities for violations of codes or laws appertaining to the communities in which schools are located. Other consequences regarding use of tobacco and products containing nicotine will be communicated to students and parents in relation to particular school rules.

Exceptions to this policy will be made only with allowance for a student following a cessation plan that may include "quit smoking medication" (i.e.- nicotine patch) and is in accordance with Policy JHCD-Administering Medication to Students

ADMINISTERING MEDICINE TO STUDENTS

Medications should be limited to those required during school hours, which are necessary to maintain the student in school, and those needed in the event of an emergency.

When the parent requests the school to administer medication the following procedures must be followed:

1. In general, schools and school personnel will not purchase medication of any kind for the purpose of providing to students. The school nurse does purchase items like ointments for students with minor cuts and abrasions and provides this to schools. Questions about basic first aid materials should be directed to the building administrator and school nurse.
2. Each building principal, in collaboration with the school nurse, will authorize a primary designee and an alternate designee to administer medication provided by parent/guardian during school hours. The school nurse is responsible for training designees and supervision of their administration of medication.
3. The school nurse will check with the building principal and/designee weekly for new medication brought to school by the parent/guardian and/or for changes made by physician / parent to a current LCSD2 Medication Administration Authorization Form.
4. All medication required by students in school must be brought to school by the parent/guardian, in its original container, clearly labeled, with a completed LCSD2 School Medication Administration Authorization Form. The school nurse or designee may allow the "first administration of prescription medication" to occur with a physician's note. Further administration of prescription medication will not occur until the authorization form is completed.
5. Except as otherwise allowed in this procedure, students must take all medication in the presence of the designated school personnel. The district nurse will set guidance for situations when students may require medication during school when the student is not in the building: field trips, activities, etc.
6. All medication will be stored in a designated area that is to remain locked when not in use. Parent / guardian is responsible for picking up the medication at the end of the school year. The school nurse will properly dispose of any medication not picked up at the end of the year.
7. Medication administration records will be kept in the event a parent should have concerns as to whether a child has or has not received his or her medication for that day. Protocols set by the nurse will be followed in case of an error in administering medication (including missed time).
8. Older and responsible students may be allowed to self-medicate / self-administer upon parent request, and approved by the school nurse and building administrator. 1) This could include medication carried by the student for life-threatening conditions as outlined by the health provider. 2) Over the counter medication to meet the unique needs of the student. 3) Notification by the parent for self-medication must include their acknowledgement that the school bears no responsibility for ensuring the medication was taken.
9. Students not following any of the above procedures, including sharing of medication with peers, will result in immediate notification of parents, and potential disciplinary procedures.
10. In accordance with standards of nursing practice, the school nurse may refuse to administer, or allow to be administered, any medication, which based on his/her assessment and professional judgment has the potential to be harmful, dangerous and inappropriate. In this case the school nurse shall notify the parent/guardian and licensed prescriber and the reason for refusal explained.

Medication Defined

Prescription medication:

- 1) This medication will be administered with written orders and instructions from the student's physician detailing the name of the drug, dosage, route, times to be administered, precautions, potential reactions and when the medication is to be discontinued.
- 2) School personnel will administer no medication unless and until a medication consent form is completed and signed by the physician and the parent/guardian. It is the responsibility of the student's parent/guardian to see that the physician signs the consent forms.

- 3) Any change in dosage, time to be administered or discontinuation of administration must be in writing from the physician.
- 4) All consent forms must be renewed annually or anytime a medication is changed.

Non-prescription medication (over the counter):

- 1) This medication shall be administered when a medication consent form is completed and signed by the student's parent/guardian detailing the name of the drug, dosage, times of administration and when medication is to be discontinued. All consent forms must be renewed annually or anytime a medication is changed.
- 2) Non-prescription medications must be sent in the original labeled container with the student's name written on it. Expiration dates will be checked. The school nurse has the flexibility based on professional judgment to ask for more information.

Non-prescription (Natural Products):

For safety and protection of students, in addition to Policy JHCD and the above procedures, natural products will not be given in the school unless approved by the FDA and the following criteria are met:

- a) a properly labeled container is provided
- b) use for children/young adults is indicated
- c) appropriate dosing for children/young adults is clearly stated
- d) possible side effects are listed
- e) parent/guardian signature is provided with a note stating the need for the product to be taken during school hours
- f) the student's health care provider may be notified by the school nurse to verify safe use of natural products if the student is also taking currently prescribed or over the counter medication

SAFETY AND SUPERVISION OF STUDENTS

Teachers/staff members are responsible for the welfare and safety of all students under their supervision, whether in the classroom or on activities. Students are to have the permission of the teacher/staff members to leave any instructional or supervised setting. Teachers/staff members may leave students unsupervised only in case of emergency.

No field trip or other activity is to be conducted under sponsorship of the school district without proper adult supervision and clearance from the principal. If adult volunteers are used, they are to act under the directives of the teachers/staff members in charge, keeping the welfare of students first in priority.

The administration shall make staff assignments that will best provide for the full and proper supervision of students at all times, whether in the classroom or on activity trips.

Volunteers must be acquainted with and agree to follow all rules, guidelines and directives as given by the teachers/staff members while with students.

Activity Supervision Statement

Student safety is the primary concern when involved in any school activity. It is the responsibility of activity advisors/coaches to supervise all students under their care when traveling. The following is a list that is intended to communicate the expectations of the district. Because we understand that no list can cover all possible situations that might arise, the expectation of the district is that coaches and supervisors ensure that their supervision of students is as adequate as possible throughout the duration of the activity.

As supervisors it is expected that they will:

1. Have proper activity related forms turned in as required.
2. Position themselves so they can actively supervise all students on the bus, understanding that the status of all students must be checked multiple times throughout the trip. The bus driver is not in charge of the students. He/she is in charge of the vehicle.
3. Supervise students during the time they are being transported in a district vehicle to a school activity. For instance, supervisors may not ride back from a trip with another party, leaving students unsupervised.
4. Supervise all students while they are on a trip (i.e.: in the mall, hotel, events center, school, restaurant, ski hill, golf course, playing field, etc.).
5. Do not conduct personal business or engage in any activity that interferes with or distracts from school business or supervision of students.
6. Follow the guidelines required of bus drivers relating to driving time, etc. Please do not ask the driver to change any of the rules and procedures he/she is required to follow without clearing those changes in advance through the transportation director.
7. Review often the rules of conduct with the students and make sure they are clearly understood.
8. Report any related behavior problems to the principal.
9. Account for students taken home by parents after an activity. Following the conclusion of an activity or competition students may be released only to their parents when properly signed out using the appropriate form carried in the coach's travel binder. Students may not ride home with anyone other than their parent or legal guardian unless a formal, written request from the parent or legal guardian is filed in the school office, prior to departure.
10. Make sure that provision is made for the safe and orderly return of students to their home after activities.
11. Leave in a timely fashion when activities are over.
12. When doing separate student activities at the same location (i.e. speech and music competitions) arrange for meeting places and times.
13. Students may not drive their own vehicles on sanctioned trips.
14. Under no conditions may students drive district/school vehicles other than for Drivers' Education.

STUDENT DRESS AND APPEARANCE

The Student Dress Code of Lincoln County School District #2 reflects the mission of the Board, which includes providing a safe, non-distracting, and welcoming learning atmosphere. As such, we believe that our school dress code should contribute to a safe and respectful learning and teaching environment. As a board, we believe that the responsibility for meeting the expectations of the Dress Code is primarily that of the students and the parents/guardians of the students.

Lincoln County School District #2 does not desire that our employees spend inordinate amounts of time policing fashion.

In order to promote understanding and positive relations with students and parents, Lincoln County School District #2 establishes the following guidelines for dress and appearance in all schools.

STUDENT DRESS & APPEARANCE GUIDELINES

1. All clothing shall be clean, neat and unexaggerated.
2. Clothing or tattoos with alcohol or tobacco advertisements, inappropriate writing, or bathroom humor may not be worn.
3. Pants need to be secured at the waist so that underclothing is not showing. Clothes that have holes in them may not be worn.
4. Immodest, tight fitting or overly loose clothing shall not be worn.
5. When shorts, skorts, skirts, or dresses are worn, the bottom of the hem must touch the kneecap.
6. Bare midriff shirts, sleeveless shirts, blouses, tank tops, or any other type of clothing that permits underclothing or skin normally covered by underclothing to be seen while standing, sitting or bending, are not to be worn.
7. Shoes must be worn at all times. Wheels, noisemakers, or damaging equipment on footwear are not permissible.
8. Heavy coats are to be left in lockers. Light jackets, blazers, vests, sweaters, and sweatshirts may be worn to classes. Full length jackets/coats such as those commonly referred to as "trench" coats or "dusters" are not allowed.
9. Hats, bandannas, sunglasses, and pajama pants are not to be worn.
10. Inappropriate types of chokers, heavy chain necklaces, other heavy chains, spike necklaces and wristbands or wallet chains are not allowed.
11. Distracting hair styles (for example high spiked hair, hair carvings, mohawks) or unnatural hair colorings (for example bright green, purple, fluorescent orange) are not allowed.
12. Pierced jewelry is limited to the ears only. Due to safety reasons nose rings, lip rings, tongue piercing rings, or any other body piercing is not permitted at school. (Limited to a maximum of 2 earrings per ear.)
13. A voluntary school uniform will always satisfy these guidelines.
14. There may be special days when the dress code may be relaxed or altered.

The above guidelines are minimal requirements for schools established by the district. School administrators in consultation with faculty, parents, and students may establish more guidelines, as needed, for their schools.

A protocol for dealing with non-compliance of these guidelines has been established at each school. Training for school personnel on how to address non-compliance of the dress code will be provided on a regular basis.

AMENDED: October 2, 2003
ADOPTED: July 16, 2003

PROTOCOL FOR DEALING WITH NON-COMPLIANCE OF THE DISTRICT DRESS AND APPEARANCE CODE

We believe that students and parents will use common sense in dress and appearance. We reserve the right to determine student compliance on dress code and appearance in relation to our policy.

We believe that within cultural norms and limits designated by the schools, students have a right to choose what they wear and how they appear. With every right comes a responsibility. With the right to choose what to wear and how to appear, comes the responsibility and the expectations to conform with generally accepted community, cultural standards of dress and appearance and not affront community standards.

Schools will train personnel in this protocol as the responsibility for ensuring compliance with the code rests on all school personnel. Because teachers and administrators interact most closely with students on a regular basis the primary responsibility for ensuring compliance will rest with them.

School personnel will be expected to communicate with students whenever they observe non-compliance with the code. In doing so they will be discreet and courteous, attempting at all times to preserve the dignity of the student.

Students who attend school or school functions (an activity designed primarily for students and not generally regarded as a public activity) dressed inappropriately will be required to change clothes before attending class or the school function.

Generally, schools will administer the dress code policy following their school discipline policy.
